Sketchbook Journey through Belgium and the Netherlands

with Kathleen Newman

www.kathleennewman.com

Join travel sketchbook instructor, Kathleen Newman, during an art cruise and workshop as we travel along the waterways from Bruges to Amsterdam! On our private barge trip, we will explore and record our experience through exciting sketchbook techniques and photographs.

While floating along and roaming the streets, we will have short class sessions about working in pencil, ink, learning additional techniques with watercolor, watercolor pencils and gouache (opaque watercolor). As we travel and roam, our goal is to learn how to simplify the scene, record the most important information with the time allowed and how to utilize our sketchbooks as a personal record of being present to our travel experience. We will keep supplies to a minimum while exploring on land ~ a small backpack with a 9 x 12 water media sketchbook, pens, pencils, eraser, small watercolor palette, and brushes. On board our floating home away from home, we will have more time to spread out and complete our sketches while learn new techniques for the days ahead.

A complete supply list will be sent upon registration.
